

**RACE  
INFORMATION  
PACKAGE**

Dear Athletes,

In the next pages we present in detail what you need to know about the **Mongolia Bike Challenge**.

As you know, we are talking about a unique event in its type and, furthermore, a unique chance to race on your bike in Mongolia.

**A long and challenging race**, open both to professional racers and high level amateurs, that will take place entirely in the lonely steppes of Mongolia from which, in the XIII century, the local herdsmen departed led by the valiant Chinggis Khan in a short-lived but also fast conquest of central Europe, China and the Middle east.

**Mongolia Bike Challenge** will not be only a mountain bike race in stages, but more than anything it will be a very strenuous physical trial and a test of psychological endurance that will try every racer.

We have studied a course that every passionate biker may desire; the MBC race offers: mountain passes, unspoiled rivers and sceneries of rare beauty.

- **5.00 pm-6.30 pm:** set up of personal items and bike check-up
- **6.30pm- 7.30pm:** awards of the day+briefing+delivery water bottle
- **7.30pm:** dinner

## **MEDICAL ASSISTANCE**

---

During all the stages we will have the presence of qualified medical professionals, composed by:

- Two ambulances following the race.
- A medical doctor of the Organization
- 1 medical assistant.

It is essential that all racers bring with them any prescription drugs they usually take and inform the Medical Staff of any health problem that could be important in case of emergency (allergies, chronic use of specific drugs etc.)

Medical staff will be provided with emergency drugs, but it is strongly recommended that every racer will have the following:

- *Antibiotics for intestinal infections* (e.g. Cyprofloxacin cp 500 mg)
- *Antidiarrhoic drugs* (e.g. Loperamid cp)
- *Analgesic drugs* (e.g. Paracetamol, Aspirin, Diclofenac)
- *Antiacids* (e.g. Maalox)
- *Sunscreen and topic cortison*
- *Eyedrops*
- *Adhesive bandages*
- *Mouthwash for sore throat*

At the end of each stage, in the overnight camps or lodgings, there will be a medical emergency center and a sport medicine team. At the refilling stations/check points we will have the equipment for rapid transport for accidents during the stage (quads, radio communication with base camp, jeep). Transportation implies the withdrawal of the racer from the event. Serious injuries during the route will be handled in an emergency manner, with the collaboration of other racers who are required to indicate any problem at the check-points.

### **There is no full time helicopter monitoring.**

Racers participate voluntarily and with responsibility in the race, as such there is no liability for the organization from accidents, injuries or other medical problems.

At the same time, discussions/unsportsman conduct or unacceptable behaviour by any racer will not be the responsibility of the organization.

Should such behaviour occur, the responsible racer will be banned from the race, to ensure the sporting spirit of this event.

## **GPS**

---

The **Mongolia Bike Challenge** is not an orientation race and, therefore, the organization will not provide any type of road book. During the race, every racer must possess and use a GPS device with the tracks uploaded from the MBC website. Although this is not an orienteering race and the race route is clearly marked at all times, there are external factors that might cause some signs to be missing, so it is the racer's responsibility to always double-check with the official GPS track on their device. **Each stage will be marked only at some crucial points, by means of wooden signs and ribbons.**

At the end of each stage, the Organization will collect whatever was used to mark the course to ensure maximum respect for nature. We will not use any type of spray or paints that are not environmentally friendly and not completely erasable.

## **WHAT TO BRING**

---

In Mongolia, in the month of August, there are extreme temperature differences between day and night (dipping close to freezing at night). Rain or snow of minor or major intensity is also possible. Therefore, in addition to their own usual/favorite cycling gear, every racer is requested to bring following **mandatory cycling gear** for safety reasons:

- Winter cap
- Warm gloves
- Warm socks
- Winter base-layer
- Rainjacket/windstopper
- Rain pants
- Winter bibs/winter leg warmers
- Rain shoe-covers
- Back pack

Moreover, other **mandatory items** include:

- 6 bottles (500 or 750 ml), already numbered with your dorsal number with a permanent marker (to know your dorsal number go to the following link: <http://www.mongoliabikechallenge.com/registered/>)
- The organization will provide bottles already filled at the refueling station point 1 & 2 (3 in each stage). Otherwise you can refill your bottles or camelback at each refueling station point
- Sleeping bag (comfort zone -10°): due to possible very low temperature.
- Sleeping Mattress

Take also into account following indications:

On your luggage and on your bicycle box/bag you must put a sheet with the MBC logo (you can download it at this address: <http://www.mongoliabikechallenge.com/brand/>).

## **READ CAREFULLY**

**Each participant will be allowed to use only one bag with a maximum capacity of 100 liters.**

## **RESPECT FOR THE ENVIRONMENT**

---

To comply with the sporting spirit of the event and with the respect for the environment and the native population, every racer is requested to follow all the instructions of the Organizing Team for the protection of nature and the local infrastructure. Therefore, it is forbidden to use streams or rivers to wash the bikes. Specifically, it is forbidden to contaminate any stream or river with any chemical substance. Rivers, lakes and streams are often the only source of drinking water for the local population.

In addition to the explicit indications given, racers should also apply common sense to protect the environment. Any incorrect behaviour will be seriously considered and punished by the Organizing Team.

## **TRAFFIC**

---

Although limited, traffic is present in several parts of the race course. In most of the key points we expect to have also the support of the local police that will provide escort for the racers and the support vehicles.
